TouchPro® Pro-G Glass PCAP

7" to 22"

×16

16 pt Multi-Touch
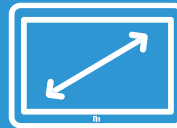

7" to 22" (Standard & Wide Format)

2 Glass Solution (2GS)

Product Overview

The Elo TouchPro Pro-G Projected Capacitive (PCAP) touch technology offers a fast and sensitive response and professional-grade reliability combined with a stylish, sleek design. Elo's Pro-G PCAP is designed for the rigors of commercial applications. The glass-glass solution (2GS) offers pristine optical clarity, high touch durability and long term stability over temperature. Pro-G is available in standard screen sizes up to 22-inches with 16-point multi-touch capabilities. Elo's TouchPro line offers a complete PCAP solution including touch screen, controller, drivers for various operating systems and software utilities resulting in shorter development and integration time. The complete integration guide provides guidelines to simplify integration and avoid typical issues such as EMI from sources such as the power supply or LCD screen. Elo also offers a wide range of customization options to meet your requirements including screen dimensions, cover glass thickness, LCD bonding, branding and surface treatments such as anti-glare.
