Elo

EloPOS™ Terminal

Modern.
Modular.
Made for Retail.

EloPOS Overview

The versatile EloPOS System combines modern aesthetics, modular flexibility and commercial-grade reliability. Purpose-built for point of sale, EloPOS offers a 15.6-inch touchscreen display, choice of Intel's 8th generation processors and an integrated expansion hub to connect the peripherals you need - whether a customer-facing display, payment device, printer, cash drawer, barcode scanner or scale. From traditional POS to self-service applications, EloPOS delivers the durability needed to survive continuous public use and is backed by Elo's standard 3-year warranty.

Retail   **Hospitality**   **Entertainment**   **Restaurant**   **Grocery**

Connections. Connections. Connections.

The expansion hub allows you to connect all of the POS peripheral support you need. From cash drawers and printers to barcode scanners and payment devices – there is connectivity to cover it all. With two models, the hub is integrated into the base of the EloPOS stand or mounted to the back of the display for pole and wall mount configurations.

Retail Ready

With a retail-hardened design and endless connections for accessories, the EloPOS System is well suited for use in any retail or hospitality environment.
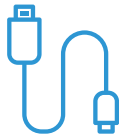

Elo Edge Connect™

You can seamlessly attach any combination of up to four peripherals to the edge of the touchscreen.

Customer-facing Display

Easily connect a customer-facing display via USB-C - providing touch, data and power with just one cable.

Touch ready

Elo's leading TouchPro® PCAP technology

Seamless Design

Edge-to-edge glass design

Connectivity

The EloPOS hub offers a variety of ports to meet all application uses.

Flexible mounting

Use a standard VESA mounting system or optional pole and self-service stands to create the solution you want.

Elo Edge Connect Lets You do More!

Built with versatility in mind, Elo Edge Connect offers a wide assortment of peripheral options. From fixed-lane point of sale to self order solutions, seamlessly attach any combination of up to four peripherals to the edge of the touchscreen creating a bespoke solution. And, you can add or move them later as your needs change!
