

Elo Touchscreens for Corporate Collaboration

DisplayNote **Montage**

No more interrupting the meeting to fuss with cables, dongles or IT. Together, the Montage software and Elo Computer Module (i5 Win 10) enables meeting attendees to wirelessly share their screen from any device onto your Elo touchscreen. This bundles extends features such as 2 way remote touch based whiteboarding and annotation, file sharing, multimedia support and more. All designed to be used in conjunction with any of our large format displays for conference and huddle rooms.

Make Meetings Flow.

1

Multiple Presenters

Montage allows multiple attendees to share their screen at the same time. That means you spend less time thinking about IT and more time focusing on what really matters.

2

Bring any Device

Wirelessly present from any device with support for Windows, Android, Chrome, Mac, iOS and Airplay. Attendees can also connect without having to install any software.

3

Enterprise Ready

Montage allows attendees to connect from any network. It also comes with end-to-end encryption and is support by a cloud-based admin portal.
