Transition Notice: ECMG2C i3 & i5 Computer Modules

Obsolete Product Information

Please be advised that i3 & i5 versions of our ECMG2C Windows® Computer Modules are being discontinued. While we work to minimize product changes, product refreshes are needed from time to time to keep the product current with new technology and features. When this occurs, we try to offer a suitable replacement product with equal or better specifications.

As previously announced in January 2018, these SKUs are being replaced by our new ECMG3 Computer Module product line. Featuring the Intel® Core™ 6th Generation CPUs and enhanced graphics engine, they are available with both Intel i3 & i5 processors for Microsoft® Windows 10, Windows 7 or no operating system. Please visit www.elotouch.com for more information on the ECMG3 Computer Modules.

Inventory and Last Time Buy

Please note that remaining inventory will be available on a first come first served basis. We will work closely with current customers to navigate this transition.
