Transition Notice: Android Computer Modules (AECM)

Obsolete Product Information

Please be advised that our Android Computer Modules (ECM) are being discontinued. While we work to minimize product changes, product refreshes are needed from time to time to keep the product current with new technology and features. When this occurs, we try to offer a suitable replacement product with equal or better specifications.

As previously announced in February 2018, these SKUs are being replaced by our new Elo Backpack™ Android Compute Engine. Featuring a powerful Qualcomm® Snapdragon™ processor, the Elo Backpack transforms our interactive signage and open frames into all-in-one commercial grade solutions. And with the capability of remotely managing your AV content, interactive HTML webpages and Android-based apps via EloView®, delivery of content and device management is simple and scalable. Please visit our [website](#) for more information on the [Elo Backpack Android Compute Engine](#).

Inventory and Last Time Buy

Please note that remaining inventory will be available on a first come first served basis. We will work closely with current customers to navigate this transition.

Obsolete & Replacement Part Numbers

Obsolete Part Number	Obsolete Product Description	Replacement Part Number	Replacement Product Description
