Product Update: AccuTouch® Resistive Touch Screens

Product Information

Elo's factory for the conductive glass substrate used on AccuTouch Resistive screens will be moving production line due to rezoning. To mitigate supply constraints during this period our sales team and distribution partners will work closely with you to forecast an aggregated demand through August 2021 so that we may plan accordingly to meet all of your AccuTouch Resistive screen needs. Please note, the manufacturing equipment, line layout and material will remain unchanged, but will be moved to a new facility. Once the location move is complete Elo will perform a full qualification cycle.

Details

1. Line move scheduled: March 1, 2021 to June 30, 2021.
2. The lead time of orders placed after July 1, 2021 will be 8 weeks for AccuTouch screens and 10 weeks for AccuTouch Zero Bezel screens. Please contact your sales representative about logistics lead time to your region.
3. There is some flexibility to adjust the buffer stock orders until October 31, 2020. Please contact your sales representative if needed.
