Installation

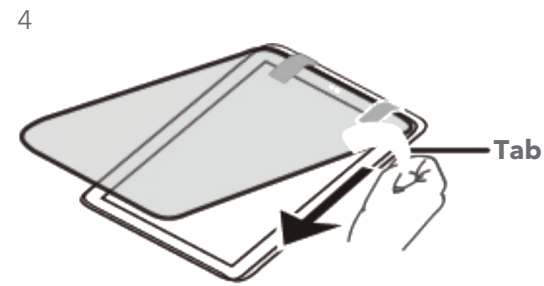

Align the overlay with your device's screen. Make sure the tab is facing the screen.

Secure the overlay at the top with the two hinge stickers.

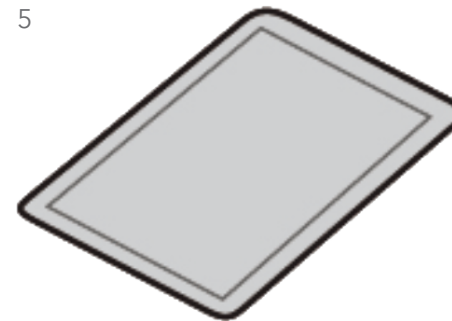

Lift up the overlay and clean the touchscreen first with the wet alcohol wipe then with the dry microfiber cloth (both included). Use the dust removal sticker (included) to clean any remaining debris. Do not use any solvents.

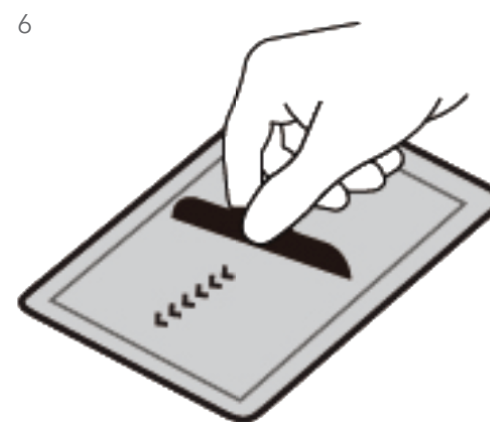

Slowly pull back the tab to remove the adhesive backing. The overlay adheres to your touchscreen.

Wait for overlay to naturally settle onto the screen surface.

Remove the hinge stickers.

Using your finger or the applicator squeegee (included), push down evenly on the overlay to remove any air bubbles. Start from the center of the overlay and work your way to the edges. Press down and use the microfiber cloth to remove any final air bubbles at the edges.
